## About Laca

Laca is a semi-sans serif inspired by retro Portuguese packaging of soaps. Laca is the Portuguese word for hairspray. The starting point was to design a typeface that would bring a familiar feeling of closeness and warmth but giving it a modern look ensuring it works well on modern platforms. It's a lively typeface that

brings texture and personality to the text. Perfect for branding and for all communications. There is an upright italic version available through the stylistic set that brings even more friendliness to the font. The result is a versatile typeface that has many OpenType features that brings stylistic alternates to the designer.

**About Nova Type Foundry**

Nova Type Foundry is an independent digital type foundry founded by Joana Correia in 2018, based in Porto, Portugal. We sell our retail typefaces directly on our website.

Besides creating careful retail typefaces Nova Type Foundry also provides custom typeface design services.

Collaboration is the main core value as a foundry. We aim to bring to life new and original designs by upcoming type designers. All our fonts are created with a lot of care and attention to detail.
